POWER OF THE DREAMS VENTURES, INC. (formerly TIA V)
(A DEVELOPMENT STAGE COMPANY)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED JUNE 30, 2013 AND 2012

NOTE 1 - GENERAL INFORMATION

Business

Power of the Dream Ventures, Inc., a Delaware corporation (“PDV”, “we” or the “Company”) is a Hungarian-based holding company focused on technology acquisition and development enabling the delivery of revolutionary concepts and ready to market products to the international market place. We develop, acquire, license, or co-develop technologies that typically originate in Hungary that are in prototype stage based on existing patents; in prototype stage prior to patenting; existing products that require expansion capital to commercialize; emerging science and high-technology research projects that require help in patenting, developing the product and marketing, university spin-off technologies and ideas from the very early stages of what represents “disruptive technologies.”

We were incorporated in Delaware on August 17, 2006, under the name Tia V, Inc. Since inception, and prior to our acquisition of Vidatech on April 10, 2007, we were engaged solely in organizational efforts and obtaining initial financing. Our sole business purpose was to identify, evaluate and complete a business combination with an operating company.

On April 10, 2007, we completed our acquisition of Vidatech, Kft. (also known as Vidatech Technological Research and Development LLC) a limited liability company formed under the laws of the Republic of Hungary. Vidatech is a company formed for the purpose of investing in, acquiring, developing, licensing, and commercializing technologies developed in Hungary. In furtherance of its business, Vidatech provides research and development services to the companies from which it acquires technologies or participation interests in such technologies.

Through Vidatech, we aim to provide pro-active support for idea, research, start-up and expansion-stage technology companies having rights to technologies or intellectual properties which we believe to be potentially commercially viable, by offering a range of services designed to encourage and protect the continuing development and eventual commercialization of those technologies.

Genetic Immunity

On October 2, 2012, the Company acquired Genetic Immunity, Inc., a US corporation domiciled in the state of Delaware (“Genetic Immunity”). Genetic Immunity is an immunotherapeutic vaccine company whose lead product candidate DermaVir has passed Phase II clinical trials.

As a result, Genetic Immunity became 100% wholly owned subsidiary. The acquisition was completed for 1,000,000 shares of Series B Preferred stock, convertible into 40 million shares of common stock beginning on January 1, 2014.

The Company filed an 8-K with the SEC disclosing this transaction on October 4, 2012.

The acquisition of Genetic Immunity has been accounted for as a business combination whereby the purchase price was allocated to intangible assets based on their fair values of the acquisition date. A summary of the purchase price consideration and related purchase price allocation are shown below:

Purchase price (at par value)	\$1,000
Fair value adjustment of shares	25,072,621
Total purchase price	25,073,621

POWER OF THE DREAMS VENTURES, INC. (formerly TIA V)
(A DEVELOPMENT STAGE COMPANY)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED JUNE 30, 2013 AND 2012

The fair value of the shares equals the fair value of Genetic Immunity at the acquisition date. The fair value of the company was estimated by an independent valuation company and the valuation was carried out on a discounted cash flow basis. The Company issued 1,000,000 shares of Series B Preferred stock which is not traded publicly and no market price could be estimated. As a result of this, the fair value of the shares was evaluated by a valuation company. The value of the shares is \$25.07362 per share.

Purchase price allocation

Cash	\$357,276
Inventories	13,843
Other receivables	306,731

Bridge loan	(2,334,326)
Other liabilities	(73,483)
Total purchase price	<u>25,074,621</u>

Unaudited pro forma operation results for the year ended December 31, 2012 as though the Company acquired Genetic Immunity on January 1, 2012 are set forth below:

Net Sales	\$ -
Cost of Sales	-
Gross margin	<u>-</u>
Material expenses	68,406
General administration	1,482,366
Research and development	-
Personnel expenses	724,264
Depreciation and amortization	191,427
Grants received	(518,631)
Other expenses, net	347,448
Operating expenses	<u>2,295,280</u>
Loss from operations	<u>(2,295,280)</u>
Interest income and exchange gains	(279,982)
Loss before income taxes	<u>(2,575,262)</u>
Income taxes	(1,985)
Net loss	<u>(2,577,247)</u>

Following our acquisition last year we are changing the organisation structure of Genetic Immunity. The CEO and Directors of GI, INC (Delaware) has already been changed, as disclosed in 8K report, filed with the SEC on June 11, 2013. We are currently changing the Articles of Association, its Amendments and Director of GI Hungary. Due to these organizational and management changes, the results for the second quarter for GI were estimated based on first quarter actual results. As GI has had limited

business activity, management believes the estimates present fairly the results of GI and consolidated PDV.

**POWER OF THE DREAMS VENTURES, INC. (formerly TIA V)
(A DEVELOPMENT STAGE COMPANY)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED JUNE 30, 2013 AND 2012**

OVERVIEW

The Company currently focuses on enabling the operations of its wholly-owned subsidiary, Genetic Immunity, which is a clinical-stage biotechnology company focusing on the discovery, development and commercialization of a new class of immunotherapeutic biologics ("Immune Therapies" or "Therapeutic Vaccines") for the treatment of chronic viral infections, cancer and allergy. Our Immune Therapies are designed to intensify or boost specific immune responses to modify or control these presently incurable diseases. The Company's main focus is completing Genetic Immunity's clinical trials program and on commercialization tasks related to the Company's lead product candidate DermaVir therapeutic HIV vaccine.

Equity position in iGlue, Inc.

The Company currently owns a minority stake in iGlue, Inc. a development stage software company trading on the OTCQB exchange in the United States. The Company financed iGlue's development efforts from August 2, 2007 (date of inception) to November 3, 2011 when iGlue went public. The Company holds 2,884,986 shares of iGlue common stock and warrants to purchase a total of three million additional shares. The market value of our iGlue common stock on June 30, 2013 was \$8,366,459, the book value of the investment is \$0.

Basis of presentation

The accompanying consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the SEC. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America for financial information have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, the accompanying financial statements include all adjustments (consisting of normal recurring accruals) considered necessary to make the financial statements not misleading as of and for the period ended June 30, 2013 and for the period from April 26, 2006 (date of inception) to June 30, 2013.

Going Concern and Management's Plan

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate the continuation of the Company as a going concern and assume realization of assets and the satisfaction of liabilities in the normal course of business. The Company has incurred losses from operations since inception. Management anticipates incurring additional losses in 2013. Further, the Company may incur additional losses thereafter, depending on its ability to generate revenues from the licensing or sale of its technologies and products, or

to enter into any or a sufficient number of joint ventures. The Company has minimal revenue to date. There is no assurance that the Company can successfully commercialize any of its technologies and products and realize any revenues therefore. The Company's technologies and products have never been utilized on a large-scale commercial basis and there is no assurance that any of its technologies or products will receive market acceptance. There is no assurance that the Company can continue to identify and acquire new technologies.

Since inception through June 30, 2013, the Company had an accumulated deficit of \$11,513,050 and net cash used in operations of \$2,614,895. However, management of the Company believes that future funding from the private placement of the Company's common shares will allow them to continue operations and execute its business plan.

Management believes the Company has adequate capital to keep the Company functioning through June 30, 2014. However, the need may arise, in the normal course of business, to raise additional capital if we want to accelerate development work, for the acquisition of additional technologies, or to meet unforeseen financial needs. No assurance can be given that the Company can obtain additional working capital, or if obtained, that such funding will not cause substantial dilution to shareholders of the Company.

If the Company is unable to raise additional funds, if needed, it may be forced to change or delay its contemplated marketing and business plan. Being a development stage company, the Company is subject to all the risks inherent in the establishment of a new enterprise and the marketing and manufacturing of a new product, many of which risks are beyond the control of the Company. All of the factors discussed above raise substantial doubt about the Company's ability to continue as a going concern.

These consolidated financial statements do not include any adjustments relating to the recoverability of recorded asset amounts that might be necessary as a result of the above uncertainty.

The significant accounting policies adopted in preparation of the consolidated financial statements are set out below.

Principles of Consolidation

The consolidated financial statements include the accounts of PDV and its wholly-owned Hungarian subsidiary, Vidatech. All significant intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates:

The preparation of the financial statements in conformity with GAAP requires management to make estimates, judgments and assumptions that affect amounts reported herein. Management believes that such estimates, judgments and assumptions are reasonable and appropriate. However, due to the inherent uncertainty involved, actual results may differ from those based upon management's judgments, estimates and assumptions. Critical accounting policies requiring the use of estimates are depreciation and amortization and share-based payments

Revenue Recognition:

Sales are recognized when there is evidence of a sales agreement, the delivery of the goods or services has occurred, the sales price is fixed or determinable and collectability is reasonably assured, generally upon shipment of product to customers and transfer of title under standard commercial terms. Sales are measured based on the net amount billed to a customer. Generally there are no formal customer acceptance requirements or further obligations. Customers do not have a general right of return on products shipped therefore no provisions are made for return.

Accounts Receivable and Allowance for Doubtful Accounts:

Accounts receivable are stated at historical value, which approximates fair value. The Company does not require collateral for accounts receivable. Accounts receivable are reduced by an allowance for amounts that may be uncollectible in the future. This estimated allowance is determined by considering factors such as length of time accounts are past due, historical experience of write offs, and customers' financial condition.

Inventories: [v4]

Inventories are stated at the lower of cost, determined based on weighted average cost or market. Inventories are reduced by an allowance for excess and obsolete inventories based on management's review of on-hand inventories compared to historical and estimated future sales and usage.

Fixed assets:

Fixed assets are stated at cost or fair value for impaired assets. Depreciation and amortization is computed principally by the straight-line method. Asset amortization charges are recorded for long lived assets. In the related periods, no asset impairment charges were accounted for. Depreciation is recorded commencing the date the assets are placed in service and is calculated using the straight line basis over their estimated useful lives.

The estimated useful lives of the various classes of long-lived assets are approximately 3-7 years.

Pensions and Other Post-retirement Employee benefits:

In Hungary, pensions are guaranteed and paid by the government or by pension funds, therefore no pensions and other post-retirement employee benefit costs or liabilities are to be calculated and accounted by the Company.

Product warranty:

The Company accrues for warranty obligations for products sold based on management estimates, with support from sales, quality and legal functions, of the amount that eventually will be required to settle such obligations. At June 30, 2013, the Company had no warranty obligations in connection with the products sold.

Advertising costs:

Advertising and sales promotion expenses are expensed as incurred.

Research and development and Investment and Advances to Non-Consolidated Entities:

In accordance with ASC 730-10-25 "Accounting for Research and Development Costs," all research and development ("R&D") costs are expensed when they are incurred, unless they are reimbursed under specific contracts. Assets used in R&D activity, such as machinery, equipment, facilities and patents that have alternative future use either in R&D activities or otherwise are capitalized. In connection with investments and advances in development-stage technology entities in which the company owns or controls less than a 50% voting interest, (see Note 4) where repayment from such entity is based on the results of the research and development having future economic benefit, the investment and advances are accounted for as costs incurred by the Company as research and development in accordance with ASC 730-20-25 "Research and Development Arrangements".

Income taxes:

The Company accounts for income taxes in accordance with ASC 740-10-25, "Accounting for Income Taxes". Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are

measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Valuation allowances are provided against deferred tax assets to the extent that it is more likely than not that the deferred tax assets will not be realized.

Comprehensive Income (Loss):

ASC 220-10-25, "Accounting for Comprehensive Income," establishes standards for reporting and disclosure of comprehensive income and its components (including revenues, expenses, gains and losses) in a full set of general-purpose financial statements. The items of other comprehensive income that are typically required to be disclosed are foreign currency items, minimum pension liability adjustments, and unrealized gains and losses on certain investments in debt and equity securities. Accumulated other comprehensive loss, at June 30, 2013 is \$100,524.

Translation of Foreign Currencies:

The U.S. dollar is the functional currency for all of the Company's businesses, except its operations in Hungary. Foreign currency denominated assets and liabilities for this unit is translated into U.S. dollars based on exchange rates prevailing at the end of each period presented, and revenues and expenses are translated at average exchange rates during the period presented. The effects of foreign exchange gains and losses arising from these translations of assets and liabilities are included as a component of equity, under other comprehensive income.

Loss per Share:

Under ASC 260-10-45, "Earnings Per Share", basic loss per common share is computed by dividing the loss applicable to common stockholders by the weighted average number of common shares assumed to be outstanding during the period of computation. Diluted loss per common share is computed using the weighted average number of common shares and, if dilutive, potential common shares outstanding during the period. There were no common stock equivalents or potentially dilutive securities outstanding during the periods ended June 30, 2013 and 2012, respectively. Accordingly, the weighted average number of common shares outstanding for the periods ended June 30, 2013 and 2012, respectively, is the same for purposes of computing both basic and diluted net income per share for such years. At June 30, 2013 all warrants were excluded from the diluted EPS calculation because they were anti-dilutive.

Business Segment:

ASC 280-10-45, "Disclosures About Segments of an Enterprise and Related Information," establishes standards for the way public enterprises report information about operating segments in annual consolidated financial statements and requires reporting of selected information about operating segments in interim financial statements regarding products and services, geographical areas and major customers. The Company has determined that under ASC 280-10-45, there are no operating segments since substantially all business operations, assets and liabilities are in Hungarian geographic segment.

Share-Based Payments:

In accordance with ASC 718-10 "Share-Based Payment" all forms of share-based payment ("SBP") awards including shares issued under employee stock purchase plans, stock options, restricted stock and stock appreciation rights result in a cost that is measured at fair value on the awards' grant date, based on the estimated number of awards that are expected to vest. As the Company did not issue any employee SBP prior to September 30, 2007, there is no compensation cost recognized in the accompanied consolidated financial statements.

The Company accounts for equity instruments issued to non-employees in accordance with the provisions of ASC 505-50, "Accounting for Equity Instruments That Are Issued to Other Than Employees for Acquiring, or in Conjunction with Selling, Goods or Services," which requires that such equity instruments are recorded at their fair value on the measurement date. The measurement of stock-based compensation is

subject to periodic adjustment as the underlying equity instrument vests. Non-employee stock-based compensation charges are amortized over the vesting period or period of performance of the services.

Recent Accounting Pronouncements:

There were various updates recently issued, most of which represented technical corrections to the accounting literature or application to specific industries and are not expected to have a material impact on the Company's consolidated financial position, results of operations or cash flows.

NOTE 3 - OTHER RECEIVABLES

	June 30, 2013	December 31, 2012
Taxes reclaimable	\$11,332	\$37,418
Advances given	261,702	264,389
Other	9,484	30,211
Total	\$282,518	\$332,018

Given advances contain advances to lawyers on the legal case of Genetic Immunity on its legal case in progress.

NOTE 4 - RESEARCH AND DEVELOPMENT ("R&D")

Our research and development activities are currently carried out through our wholly-owned subsidiary, Genetic Immunity which is engaged in the development of therapeutic vaccines for several different diseases including HIV, cancer, allergies and more. Current research and development is limited to DNA sequencing as we pursue commercialization tasks related to the company's lead product candidate therapeutic HIV vaccine DermaVir. Once Dermavir is fully commercialized we will initiate additional R&D to develop several cancer and allergy vaccines.

NOTE 5 - INTANGIBLES AND FIXED ASSETS

June 30, 2013	30,188,399	256,383	64,742	321,125

The net book value of fixed assets under capital lease amount to \$64,742 and \$76,126 at June 30, 2013 and at December 31, 2012, respectively.

The Company owns the following patents as intangible assets:

- Re: PCT US97/02933 publication No. WO973119A1, corresp to USSN 08/803,484 'Methods and Compositions for Therapeutic and Genetic Immunization' filed 20 February 1997 by J. Lisziewicz and F. Lori, Atty. Docket No. RGT 100A PCT
- Re: PCT/US98/19498 publication No. WO9913915A1 'Method of Delivering Genes into Antigen Presenting Cells of the skin' corresp. to USSN 09/153,198 filed 15 September 1998 by Lisziewicz & Lori, Atty Docket No. RGT 9771 PCT
- Re: PCT US 04/000746 publication No. WO 2004/065575, corresp. to USSN 10/757,343 "Plasmid DNA and Uses therefor" filed 14 January 2004, based on prov'l appln 60/440,245 filed 15 January, 2003, by Lisziewicz, et al., Atty Docket No. RGT 7033

• Above the patents, the following trademark is owned ~~by~~:

- Trademark "Genetic Immunity" Serial No. 75153267, filed January 22, 1999, 1st use at least Jan 13, 1999, Reg. No. 2657301 on December 3, 2002

During the acquisition of Genetic Immunity, the Company has received the valuation of the patents from an independent valuation company. According to the valuation, the Company entered the acquired intangibles to the consolidated balance sheet. The acquired intangibles have indefinite useful life and annual impairment test is carried out on a discounted cash flow basis. According to the latest valuation carried out at October 2, 2012, no impairment losses are to be recognized.

NOTE 6 - NOTE PAYABLE

Mary Passalaqua

On October 20, 2011, the Company was presented with an Amended Convertible Promissory Note by Mary Passalaqua. In the revised agreement Ms. Passalaqua requested that the outstanding portion of such note be paid in shares in such quantity that will satisfy the debt of \$125,000. As a second step in this conversion process, Mary Passalaqua requested the conversion of \$20,000 into shares of the Company's common stock. To satisfy this request, the Company instructed its transfer agent to issue Mary Passalaqua 3,500,000 shares of its common stock. Upon conversion of the \$20,000, the balance of such note was \$105,000 plus accrued interest.

On August 5, 2010, the Company was presented with an Amended Convertible Promissory Note by Mary Passalaqua. In the revised agreement, Ms. Passalaqua requested that the outstanding portion of such note be paid in shares in such quantity that will satisfy the debt of \$195,000 owned. As the first step in this conversion process, Mary Passalaqua requested the conversion of \$70,000 into shares of the Company's common stock. To satisfy this request, the Company instructed its transfer agent to issue Mary Passalaqua 2,400,000 shares of its common stock. Upon conversion of the \$70,000, the outstanding balance of such note was \$125,000 plus accrued interest.

On April 10, 2007, in connection with reverse merger, the Company assumed a note payable of \$250,000 to a former stockholder, Mary Passalaqua. The original term of such note was for one year and had a maturity date of April 5, 2008. The note was extended for an additional year to April 5, 2009 with the same conditions. As such note payable was issued immediately prior to the reverse merger, such issuance was recorded as additional compensation by the Company prior to the reverse merger. Accordingly, such compensation is reflected in the accompanying consolidated balance sheet as the accumulated deficit of the Company, and will not be reflected in the statement of operations, as such compensation expense was structured as an expense prior to the recapitalization.

In November, 2008 the Company settled \$35,000 from the outstanding liability, and in May of 2009 the Company settled another \$20,000 from the liability. The note payable bears interest at the prime rate (3.25% at June 30, 2013). Interest accrual in connection with such note amounted to \$50,710 and \$49,004 for the period ended at June 30, 2013 and at December 31, 2012, respectively, and was accrued and included in accounts payable and accrued liabilities in the accompanying consolidated balance sheet.

Infinite Funding

On July 19, 2011, the Company issued a Promissory Note in favor of Infinite Funding, Inc for the aggregate amount of \$49,000. Such note bears interest at 12% per annum.

NOTE 7 - CAPITAL LEASES PAYABLE

In August, 2007, the Company entered into capital lease agreements on 3 vehicles for management purposes. The maturity of the lease is 60 months and is denominated in CHF. Installments and interest is due on a monthly basis. In December, 2007, the Company entered into additional capital lease agreements on 2 vehicles for management purposes. The maturity of the lease is 72 months and is denominated in CHF. Installments and interest is due on a monthly basis.

In December 2008, the Company settled the capital lease agreements on 2 vehicles and replaced them with new agreements for additional 2 vehicles, totaling 5 capital lease agreements at December 31, 2008. The maturity of the new leases varies from 60 to 72 months and are denominated in EUR and CHF. Installments and interests are due on a monthly basis.

In 2011 and later in September 2012, the Company closed a capital lease agreement for two vehicles. The related assets have been sold.

The following is a schedule by years of future minimum lease payments under capital leases together with the present value of the net minimum lease payments as of June 30, 2013:

For the period ending June 30, 2013	Amounts
2013	28,973
2014	57,945
2015	21,043
Total minimum lease payments	<u>107,961</u>
Less: amounts representing interest	<u>310</u>
Present value of net minimum lease payments	107,651
Less: current portion	<u>50,505</u>
Long term liability	<u>\$57,146</u>

NOTE 8 - STOCKHOLDERS' EQUITY

On October 2, 2012 the Company acquired Genetic Immunity, Inc., a US corporation domiciled in the state of Delaware. Genetic Immunity is an immunotherapeutic vaccine company whose lead product candidate DermaVir has passed Phase II clinical trials.

Through the acquisitions Genetic Immunity became 100% wholly owned subsidiary. The acquisition was completed for 1,000,000 shares of Series B Preferred stock, convertible into 40 million shares of common stock beginning on January 1, 2014.

On October 26, 2011, the Company's former Vice President, Daniel Kun, Jr. entered into those certain equity exchange agreements with Viktor Rozsnyay and Daniel Kun, Jr., respectively. Mr. Rozsnyay is President, CEO and Chairman of the Board of Directors of the Company and Mr. Kun is the former Vice-President. Each agreement is identical and provides in summary form as follows: each of Messrs. Rozsnyay and Kun delivered twelve million (12,000,000) of their shares of common stock of the Company to the Company for cancellation immediately (the "Exchange Shares"). Such agreements provide that the delivered Exchange Shares will be returned to the treasury of the Company as unauthorized shares of common stock and will become available for subsequent issuance by the Company from time to time. As consideration for the surrender of the Exchange Shares, the Company issued and delivered two million (2,000,000) restricted shares of a new class of Series A Preferred Stock, 1,000,000 shares each to Mr. Rozsnyay and Mr. Kun.

These share issuances were recorded at \$0.4 per share in the total amount of \$100,000 and the related expense was recorded under general administration.

In June 2007, pursuant to a private placement under Regulation S of the Securities Act of 1933, as amended, the Company sold 2,250,000 shares of its common stocks at \$0.34 per share for a total subscription receivable of \$765,000. The Company also entered into a Registration Rights Agreement, pursuant to which it agreed that as soon as practicable from the Offering Termination Date, as defined in the Registration Rights Agreement, it would file a registration statement with the SEC covering the resale of the shares of the Company's common stock that are issuable pursuant to this private placement.

There are no stipulated damages outlined in the Registration Rights Agreement for failure to file within the agreed upon time frame. Under such agreement, the holder is entitled to exercise all rights granted by law, including recovery of damages under this agreement. In June 2007, the Company entered into separate consulting agreements with five consultants for 12 to 24 month periods, respectively. According to the agreements the consultants will provide general business consulting services.

As consideration for such services, the Company issued an aggregate of 1,375,000 shares of the Company's common stock. These share issuances were recorded at \$0.34 per share in the total amount of \$467,501 in accordance with measurement date principles prescribed under ASC 505-50 and ASC 718-10. The Company is amortizing the fair value of the shares over the term of the agreement to stock-based compensation expense, which amounted to \$0 for the period ended June 30, 2013 and March 31, 2012, respectively and \$467,501 for the period from April 26, 2006 (date of inception) to June 30, 2013, in accordance with ASC 505-50 and ASC 718-10.

In April 2007, the Company entered into an agreement with two professionals for legal services. According to the agreement the professionals provided legal services to the Company in 2007. In connection with these services, the Company issued to them 500,000 shares of the Company's common stock. These share issuances were recorded at \$0.34 per share in the total amount of \$170,000 and the related expense was recorded under general administration.

In connection with the ITA (See Note 4), the Company issued 100,000 shares of the Company's common stock to the inventors. These shares issuance were recorded at fair value of \$0.34 per share in the total amount of \$34,000. The cost of the related invention was recorded as research and development expense.

Other agreements

On March 16, 2011, the Company issued that certain Convertible Promissory Note in favor Infinite Funding LLC in the aggregate amount of \$76,000. The note bears interest at 10%, is due December 5, 2011, and is convertible into shares of common stock at a conversion price of \$0.05. On December 4, 2012, the Company received an extension to this note to December 31, 2013. On September 30, 2012, the loan was converted into 1,900,000 common stocks at a conversion price of \$0.04 per share.

On October 8, 2008, the Company entered into a Standby Equity Distribution Agreement (the "Standby Equity Distribution Agreement") with YA Global Investments, L.P. (the "Investor"). Pursuant to the terms of the Standby Equity Distribution Agreement, the Company (a) agreed to issue and sell to the Investor up to \$5,000,000 of shares of the Company's common stock, par value \$0.0001 per share (the "Common Stock") in tranches of equity, based upon a 7% discount to the market price of the Common Stock, calculated over the five trading days following notice by the Company of an election to sell shares; and (b) issued to the Investor a warrant (the "Warrant") to purchase 4,027,386 shares of Common Stock at the exercise price per share of \$0.29. The Warrant is not part of the commitment shares issued by the company to the investor.

The Investor must purchase the shares underlying the Warrant. The Warrant price was determined based upon the highest bid price on the day of the closing of the agreement. The Investor is required to exercise the Warrant upon notice by the Company of an election to have the warrants exercised at a fix price of \$0.29 per common stock.

In connection with the Standby Equity Distribution Agreement, the Company entered into a Registration Rights Agreement with the Investor (the "Registration Rights Agreement") pursuant to which the Company agreed to register for resale the shares of Common Stock that may be purchased by the Investor pursuant to the Standby Equity Distribution Agreement, the shares of Common Stock issuable upon exercise of the Warrant and 2,000,000 shares of Common Stock (the "Commitment Shares") issued to the Investor as a commitment fee pursuant to the terms of the Standby Equity Distribution Agreement.

The 2,000,000 shares issued as a commitment fee were valued at \$0.4 per share or \$800,000 based on the fair value at issuance date. The \$800,000 commitment fee has been debited against additional paid in capital in accordance with the provisions of Staff Accounting Bulletin Topic 5A.

On September 24, 2010 the Company notified the Investor in writing of its intention to terminate the Standby Equity Distribution Agreement.

In response to this letter, the Investor informed the Company in a letter, dated October 5, 2010, that the Standby Equity Distribution Agreement will terminate on or about October 15, 2010. The Investor also informed the Company that even though the Standby Equity Distribution Agreement is terminated, the Warrant shall remain in effect until it expires on October 8, 2013.

On October 18, 2010, the company received notice from the Investor for the exercise of 50,000 warrant shares on a cashless basis. This cashless exercise resulted in the issuance of 3,226 shares of Common Stock to the Investor. Following this exercise, the Investor has 3,977,386 warrant shares available for purchase. The fair value of the liability from warrant is immaterial.

On September 10, 2012, the Investor notified the Company that according to the terms of the Warrant there should have been a proportional reduction in the Warrant's exercise price to the price of a private placement that was completed at a lower price than the \$0.29 exercise price. The Investor and the Company agreed to modify the Warrant exercise price from the original \$0.29 to \$0.10.

At the same time the Investor also notified the Company of their intention to sell the Warrant in a private transaction to an unaffiliated accredited investor. This transaction was contemplated on September 10, 2012. The new owner, Bluestar Consulting, now has the right to acquire, on or before October 8, 2013, 3,977,386 shares of Common Stock at a per share exercise price of \$0.10. The fair value of the liability using Black-Scholes valuation at June 30, 2013 is \$39,774, which is classified at short term liabilities. The fair value of the liability is established as a Level 3 fair value measurement.

The following table shows the movement in fair value along with the change of warrant conditions:

June 30, 2013	Book value	Fair value
Financial liabilities		
<i>Liabilities measured at fair value</i>	39,774	39,774
December 31, 2012		
Financial liabilities		
<i>Liabilities measured at fair value</i>	608,540	608,540
Fair value of warrant per share	June 30, 2013	December 31, 2012
Per share	\$0.015	\$0.153

The inputs used in fair value estimation are:

current share price at June 30, 2013:	\$0.1
exercise price	\$0.1
expected time to expiry (years):	0.25
risk free rate	3.25 (FED prime rate)
expected dividend yield:	0
volatility:	50%

The change in the amount of warrant liability is accounted as other expense.

On May 17, 2008, the Company entered into an agreement with Wakabayashi Fund LLC (“Wakabayashi”) in order to arrange financing for working capital as an intermediary. Wakabayashi provided capital funding services including serving as an investment banking liaison and acted as capital consultant for a six month period. The Company issued 111,111 shares of restricted common stock upfront at \$1.35 per share, the market price of the stock on the commitment date of the agreement. Additionally, the Company agreed to pay for the capital funding services 7% success fee. These share issuances were recorded at \$1.35 per share in the total amount of \$150,000 in accordance with measurement date principles prescribed under ASC 505-50. The Company is amortizing the fair value of the shares in general and administration expenses over the term of the agreement to stock-based compensation expense, which amounted to \$0 for the period ended June 30, 2013 and \$150,000 for the period from April 26, 2006 (date of inception) to June 30, 2013, in accordance with ASC 505-50. As of November 17, 2008, such agreement had been terminated without any funds raised.

On April 18, 2008, the Company entered an agreement with RedChip Companies Inc. (“RedChip”) and Partner Media4Equity Inc. (“Media4Equity”) for an investor relationship program for a period of 12 months. The Company secured and delivered 306,570 shares of restricted common stock with a market price of \$0.70 for a 12 months period in connection with RedChip’s investor relationship services. The compensation for Media4Equity services was the delivery of 1,500,000 shares of restricted common stock. These share issuances were recorded at \$0.75 per share, the market price of the common stock on the commitment date of the agreement, for a total amount of \$1,125,000 in accordance with measurement date principles prescribed under ASC 505-50. The Company is amortizing the fair value of the shares in general and administration expenses over the term of the agreement to stock-based compensation expense, which amounted to \$0 for the periods ended June 30, 2013 and December 31, 2012, respectively and \$1,339,599 for the period from April 26, 2006 (date of inception) to June 30, 2013, in accordance with ASC 505-50.

Stock based compensations

On January 1, 2011, the Company entered into a restricted stock agreement with Ildiko Rozsa, the Chief Financial Officer of the Company. As part of the agreement Ms. Rozsa was granted 100,000 restricted shares of the Company's common stock of which 25,000 shares will vest quarterly, at the end of each quarter, so long as Ms. Rozsa is employed by the Company.

As part of the agreement Ms. Toth was granted 100,000 shares of restricted common stock of which 50,000 shares are vested upon grant and 10,000 shares will vest quarterly, at the end of each quarter, so long as Ms. Toth is employed by the Company.

On October 24, 2007, the Company entered into a restricted stock agreement with Mihaly Zala, the Chief Technology Officer of the Company. As part of the agreement Mr. Zala was granted 150,000 shares of restricted common stock, which will vest on equal installments of 30,000 shares quarterly, at the end of each quarter, so long as Mr. Zala is employed by the Company.

On October 24, 2007, the Company entered into a restricted stock agreement with Imre Eotvos, the Technology Assistant of the Company. As part of the agreement Mr. Eotvos was granted 25,000 shares of restricted common stock, which will vest on equal installments of 5,000 shares quarterly, at the end of each quarter, so long as Mr. Eotvos is employed by the Company.

On October 1, 2007, the Company entered into a restricted stock agreement with Sandorne Juhasz, who provides payroll accounting services to the Company on a subcontracting basis. As part of the agreement

Ms. Juhasz was granted 11,000 shares of restricted common stock, of which 8,000 is will vest upon grant and 750 shares will vest quarterly, at the end of each quarter, so long as Ms. Juhasz is employed by the Company.

On October 24, 2007, the Company entered into a restricted stock agreement with Daniel Kun, Jr., as the Company's former Secretary. As part of the agreement Mr. Kun was granted 250,000 shares of restricted common stock, which will vest on equal installments of 50,000 shares quarterly, at the end of each quarter, so long as Mr. Kun is employed by the Company.

On October 24, 2007, the Company entered into a restricted stock agreement with Viktor Rozsnyay, who is serving as President and Chief Executive Officer of the Company. As part of the agreement Mr. Rozsnyay was granted 250,000 shares of restricted common stock, which will vest on equal installments of 50,000 shares quarterly, at the end of each quarter, so long as Mr. Rozsnyay is employed by the Company.

As consideration for the above services for the employment of the above 7 persons, the Company issued an aggregate of 1,036,000 shares of the Company's common stock. These share issuances were recorded at \$2.5 per share in the total amount of \$2,590,000 in accordance with measurement date principles prescribed under ASC 505-50 and ASC 718-10. The Company is amortizing the fair value of the shares over the term of the agreement to stock-based compensation expense, which amounted to \$0 for the periods ended June 30, 2013 and December 31, 2012 and \$2,590,000 for the period from April 26, 2006 (date of inception) to June 30, 2013, in accordance with ASC 505-50 and ASC 718-10.

Reverse merger

On August 5, 2011 the Company was presented with an Amended Convertible Promissory Note by Mary Passalaqua. In the revised agreement Ms. Passalaqua requested that the outstanding portion of such Note be paid in shares in such quantity that will satisfy the debt of \$195,000 owned. As first step in this conversion process Mary Passalaqua requested the conversion of \$70,000 into shares of the Company's common stock. To satisfy this request the Company instructed its transfer agent to issue Mary Passalaqua 2,400,000 shares of its common stock.

On October 20, 2011 the Company was presented with an Amended Convertible Promissory Note by Mary Passalaqua. In the revised agreement Ms. Passalaqua requested that the outstanding portion of such Note be paid in shares in such quantity that will satisfy the debt of \$125,000 owned. As the second step in this conversion process Mary Passalaqua requested the conversion of \$20,000 into shares of the Company's common stock. To satisfy this request the Company instructed its transfer agent to issue Mary Passalaqua 3,500,000 shares of common. Upon conversion of the \$20,000 our outstanding Promissory Note balance will be \$105,000 plus accrued interest.

On April 10, 2007, the Company entered into a reverse merger transaction with Vidatech. In connection with the merger 2,500,000 shares of PDV common stock remained outstanding and PDV issued 33,300,000 shares of its common stock for all the outstanding common stock of Vidatech. As a result of this transaction, the former stockholders of Vidatech became the controlling stockholders of PDV. Accordingly, the reverse merger has been accounted for as a recapitalization of Vidatech.

In May, 2006, the Company entered into a short term loan agreement with its Chief Executive Officer, Viktor Rozsnyay, for approximately \$96,100 with a maturity of April 30, 2007. On December 28, 2006 Mr. Rozsnyay elected to convert the loan into equity, which is recorded as additional paid in capital.

In March, 2007, the Company entered into a short term loan agreement with its former Chief Financial Officer, Daniel Kun Jr., for approximately \$53,735 with a maturity of March 31, 2007. On March 31, 2007 Mr. Kun elected to convert the loan into equity, which is recorded as additional paid in capital.

On April 5, 2012, the Company filed a Preliminary 14C Information Statement with the Securities and Exchange Commission announcing the following:

- (i) the reduction of the authorized shares of common stock of the Company from 250,000,000 to 50,000,000 such shares without affecting the issued and outstanding shares of the Company's common stock;
- (ii) an increase in the par value of the Company's common stock and preferred stock from \$.0001 per share to \$.001 per share; and
- (iii) the creation of a class of 1,000,000 shares of Series B Preferred stock of the Company.

On April 24, 2012, the Company filed its Definitive Information statement to finalize this transaction.

By the end of June 30, 2013 and December 31, 2012, the majority owners of the Company, Mr. Viktor Rozsnyay and Mr. Peter Boros, along with another owner of the Company provided short term loans of \$183,319 and \$67,183 respectively. These loans bear zero interest.

At June 30, 2013 there are no non-vested restricted stock awards.

NOTE 9 - ACCOUNTS PAYABLE, ACCRUED AND OTHER LIABILITIES

	June 30, 2013	December 31, 2012
Accounts payable and accrued expenses	\$2,092,207	\$1,662,172
Interest accruals	1,366,862	1,205,632
Total	\$3,459,069	\$2,867,804

In 2007, Genetic Immunity conducted a US\$2.0 million convertible debenture bridge in anticipation of a reverse merger which was not consummated due to then current economic and market conditions. The debenture was due August 2009. The US\$1.1 million in face value of debentures was purchased by a fund operating under the Small Business Investment Company ("SBIC") which has since been put into receivership with the U.S. Small Business Administration (the "SBA"). The SBA is expected to execute a forbearance agreement. The remaining US\$900,000 of face value of the debenture is held by individuals who are considering whether to sign the forbearance agreement. The debenture holders have liens on certain intellectual property of the Company. Because there is significant know how associated with the intellectual property, the involvement of the Company's management team and scientific team is necessary to commercialize the intellectual property. As of the printing of this document, the Company received written consent from the SBA to proceed with the forbearance agreement and is awaiting similar approval from the aforementioned individuals. If said individuals elect to not accept the terms of the forbearance agreement as approved by the Company and the SBA, thus keeping the Company in default on its obligations, there is the potential for litigation by the holders of the debentures.[v7]

NOTE 10 - GRANTS RECEIVED

During 2007 and 2008, Genetic Immunity gained several government grants from the Hungarian state in order to finance the research and development projects. The grants are payable in arrears to 4 projects of the Company: DERMAVI_, DVCLIN01, FIBERSC2 and WINGS. The Company accrued for the grants received and it is reversed to the income statement along with the occurrence of the related expenses. Grants are payable in accordance with the milestone, not annually. Audited financial statements had to be disclosed to State Office as settlement of each milestone. Theses audits have been performed by the statutory auditor of the Hungarian Subsidiary. WINGS is an EU FP7 international consortium grant financed by the European Union.

DERMAVI_ is successfully closed in 2009. DVCLIN01 supports the phase II clinical development of DermaVir. The Company made the final grant matching payment in April and will close this grant in the

first half of 2013. FIBERSC2 supports the investigation of DermaVir mechanism of action with novel fiber integrated microscopy and will be concluded in 2013. WINGS supports the development of West Nile Virus vaccine with DermaVir technology and will be concluded in 2013.

NOTE 11 - SHORT TERM LOANS AND LONG TERM LOANS

	June 30, 2013	December 31, 2012
Bridge Loan	\$2,000,000	\$2,000,000
Bridge loan payable provision	228,548	188,465
RIGHT loan	95,012	217,420
Bryan Sanders loan	30,000	30,000
Total short term loans	2,353,560	2,435,885
RIGHT loan	117,401	-
Total long term loans	117,401	-

The loans above are assumed from the acquisition of Genetic Immunity.

Bridge Loan

On August 29, 2007, the Company entered into a Bridge Loan agreement as a Senior Secured Convertible Debenture for an amount of \$2,000,000. The loan providers are the followings:

Name	Bridge Amount
<i>SBIC Investors</i>	
Trident	\$1,100,000
<i>Non-SBIC Investors</i>	
Andy Browder	25,000
Proto Investments	250,000
Ford Sasser	25,000
Danny Vela	25,000
Steve Walton	150,000
Hilton Wilson	25,000
Will Wilson	250,000
Rodman & Renshaw	150,000
	\$2,000,000

The loan bears an annual interest rate of 12%. According to the loan agreement, the Company settles the loan principal on the earlier of August 29, 2009 or consummation of a qualifying transaction other than reverse merger effected by the Company in completion of or in connection with a Public Offering. In case of late payment, the Company is liable to pay 18% late interest fee. The accumulated interest payable, along with the late payment interest is accrued in accrued expenses (see Note 6).

As of the printing of this document, the US\$1.1 million in face value of debentures was purchased by a fund operating under the SBIC, which has since been put into receivership with the U.S. SBA. The SBA is expected to execute a forbearance agreement. The remaining US\$900,000.00 of face value of the debenture is held by individuals who are considering whether to sign the forbearance agreement. The debenture holders have liens on certain intellectual property of the Company. Because there is significant know how associated with the intellectual property, the involvement of the Company's management team and

scientific team is necessary to commercialize the intellectual property. –Most recently, the Company received written consent from the SBA to proceed with the forbearance agreement and is awaiting similar approval from the aforementioned individuals. If said individuals elect to not accept the terms of the forbearance agreement as approved by the Company and the SBA, thus keeping the Company in default on its obligations, there is the potential for litigation by the holders of the debentures. [The loan is not convertible at 30+ ~~March-June~~ 2013.]^[v9]

RIGHT Loan

On January 31, 2013, the Company entered into a modification of RIGHT loan contract. According to the modification, the total outstanding amount of 225,000 EUR is payable from September 15, 2013 in 15,000 EUR instalments. As a result of the modification 90.000 EUR is reclassified to long term liabilities.

The loan bears 3% annual interest.

NOTE 12 - OTHER EXPENSES

Other expenses include the change in the value of the liability for warrants for Bluestar Consulting in the amount of \$568,766.

NOTE 13 - SUBSEQUENT EVENTS

Our wholly owned subsidiary, Genetic Immunity (GI), has initiated a law suit against the National Development Agency of Hungary. In 2009 GI successfully applied for and won an 800 million Hungarian forint (approximately \$4,000,000) research grant to conduct dust mite allergy vaccine research. Subsequently the agency refused to sign the grant and denied payment of funds. The Company sued to have the court reinstate the contract that resulted in a grant award. An appeals court decision on February 13, 2013 ruled that the court could not reinstate the contract between Genetic Immunity and the National Development Agency as the contract has been validly in existence since its original signing in 2009. As such GI was ordered to pay 52,500,000 HUF (approximately \$250,000) in law suit costs. At the same time the judgment also clearly stated that the since the original grant contract is valid the company is entitled to receive the original grant amount, interest payment and/or damages. On February 18, 2013 the Company filed a new petition to have the courts establish the damages and awards Genetic Immunity can receive based on appeals court ruling. The first hearing was held on May 2nd, followed by a hearing on July 2nd. and July 10th. The next hearing is scheduled for September 10th. We are currently suing the National Development Agency for 4,800,000,000 HUF (approximately \$20 million) for damages sustained. The Company anticipates a resolution to this issue in 2013.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

This quarterly report on Form 10-Q and other reports filed by Power of the Dream Ventures, Inc. (the “Company”) from time to time with the SEC contain or may contain forward-looking statements and information that are (collectively, the “Filings”) based upon beliefs of, and information currently available to, the Company’s management as well as estimates and assumptions made by Company’s management. Readers are cautioned not to place undue reliance on these forward-looking statements, which are only predictions and speak only as of the date hereof. When used in the Filings, the words “anticipate,” “believe,” “estimate,” “expect,” “future,” “intend,” “plan,” or the negative of these terms and similar expressions as they relate to the Company or the Company’s management identify forward-looking statements. Such statements reflect the current view of the Company with respect to future events and are subject to risks, uncertainties, assumptions, and other factors, including the risks contained in the “Risk Factors” section of the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2012, filed with the SEC, relating to the Company’s industry, the Company’s operations and results of operations, and any businesses that the Company may acquire. Should one or more of these risks or uncertainties materialize, or should the underlying assumptions prove incorrect, actual results may differ significantly from those anticipated, believed, estimated, expected, intended, or planned.

Although the Company believes that the expectations reflected in the forward-looking statements are reasonable, the Company cannot guarantee future results, levels of activity, performance, or achievements. Except as required by applicable law, including the securities laws of the United States, the Company does not intend to update any of the forward-looking statements to conform these statements to actual results.

Our financial statements are prepared in accordance with accounting principles generally accepted in the United States (“GAAP”). These accounting principles require us to make certain estimates, judgments and assumptions. We believe that the estimates, judgments and assumptions upon which we rely are reasonable based upon information available to us at the time that these estimates, judgments and assumptions are made. These estimates, judgments and assumptions can affect the reported amounts of assets and liabilities as of the date of the financial statements as well as the reported amounts of revenues and expenses during the periods presented. Our financial statements would be affected to the extent there are material differences between these estimates and actual results. In many cases, the accounting treatment of a particular transaction is specifically dictated by GAAP and does not require management’s judgment in its application. There are also areas in which management’s judgment in selecting any available alternative would not produce a materially different result. The following discussion should be read in conjunction with our consolidated financial statements and notes thereto appearing elsewhere in this report.

OVERVIEW

| We currently focuses on enabling the operations of our wholly-owned subsidiary, Genetic Immunity, a Phase III clinical-stage biotechnology company focused on the discovery, development and commercialization of a new class of immunotherapeutic biologics ("Immune Therapies" or "Therapeutic Vaccines") for the treatment of chronic viral infections, cancer and allergy. Our Immune Therapies are designed to intensify or boost specific immune responses to modify or control these presently incurable diseases.

Plan of Operation

The Company is one of Hungary’s leading technology holding companies. We identify, invest in and acquire technologies originating in Hungary we deem to be internationally marketable. We currently hold equity interest in iGlue, Inc. a U.S. public company. Through our wholly owned subsidiary, Genetic Immunity, a biotechnology company we acquired in October of 2012, we now focus on the commercialization tasks related to Genetic Immunity’s lead product candidate DermaVir, a therapeutic HIV vaccine.

We are looking to generate revenue through the sale of Genetic Immunity’s Therapeutic Vaccines upon U.S., European and global marketing approvals, and through the sale of our equity interest in iGlue, Inc.

We believe we can raise sufficient additional financing through the sale of our common stock to allow us to continue operations and execute our business plan in the next 12 months. We also anticipate receiving a minimum of \$5 million and a maximum of \$22 million from a lawsuit initiated against the National Development Agency in Hungary for breach of contract for a previously awarded grant. Should the need arise, we plan to raise additional funds, both from U.S. and international investors. We believe that through the acquisition of Genetic Immunity and the company's lead product candidate DermaVir, we will be in a position to start generating revenue in 2014. We believe that our ownership of one of the world's first, clinically proven, therapeutic HIV vaccine will prove attractive to both private and institutional investors, making fundraising a less strenuous process than before.

If necessary, we intend to raise additional capital in a manner that is the least dilutive to our shareholders yet at the same time serves our development, commercialization and operating needs. We anticipate one round of fundraising in 2013 as we move closer to commercializing DermaVir. By the end of 2013, we plan to seek conditional marketing approval for DermaVir in the European Union.

Even though we believe our public status will allow us to raise additional capital, if needed, no assurance can be given that we can in fact obtain additional working capital, or if obtained, that such funding will not cause substantial dilution to shareholders of the Company. If we are unable to raise additional funds, we may be forced to change or delay our contemplated marketing and business plan.

In the next 12 months we anticipate spending approximately \$2,000,000 on DermaVir's regulatory approval, commercialization and general administrative expenses. We believe these funds will become available to us from proceeds obtained from our lawsuit against the Hungarian Development Agency and from the sale of our common stock, if necessary.

Upon regulatory approval of DermaVir, we anticipate making substantial equipment purchases to expand our GMP manufacturing facility and to increase our work force to fully implement commercialization tasks.

If we are unable to raise additional financing there is substantial doubt about our ability to continue as a going concern. The condensed consolidated financial statements included elsewhere in this prospectus do not include any adjustments relating to the recoverability of recorded asset amounts that might be necessary as a result of the above uncertainty.

Results of Operations

For the Six Months Ended June 30, 2013 Compared to the Six Months Ended June 30, 2012

	For the Six Months		
	Ended June 30,		
	2013	2012	Increase/ Decrease
Net sales	\$ -	-	-
Gross profit	\$ -	-	-
General and administrative expenses	\$ 503,058	211,805	291,253
Profit (Loss) from operations	\$ (875,058)	(305,608)	569,450
Interest Expenses and Exchange Gains	\$ (183,900)	(16,163)	167,737
Net profit (loss)	\$ (490,192)	(321,771)	168,421

Revenue

For the six months ended June 30, 2013 and 2012, the Company had no revenues.

General, selling and administrative expenses

For the six months ended June 30, 2013, general, selling and administrative expenses were \$503,058 as compared to \$211,805 for the six months ended June 30, 2012. The increase in general, selling and administrative expenses is attributable to ~~the new segment of Genetic Immunity expenses acquisition.~~^{[v10][v11]}.

Loss from Operations

Loss from operations for the six months ended June 30, 2013 and 2012 was \$875,058 and \$305,608, respectively. The primary decrease in loss from operations is attributable ~~to the adjustment in the valuation in warrant liability.~~^[v12] ~~to the increase of general administration expenses and personnel expenses.~~

Non-operating expenses

~~\$568,766 is recorded as gain from change in the value of the warrant that are classified as liability.~~

Net Profit (Loss)^[v13]

The net loss for the six months ended June 30, 2013 and 2012 was \$490,192 and \$321,771, respectively.

Liquidity and Capital Resources

The following table summarizes total current assets, liabilities and working capital at June 30, 2013, compared to December 31, 2012:

	June 30, 2013	December 31, 2012	Increase/Decrease
Current Assets	\$ 348,104	\$ 419,974	(71,870)
Current Liabilities	\$ 7,751,385	\$ 7,761,171	(9,786)
Working Capital (Deficit)	\$ (7,403,281)	\$ (7,341,197)	62,084

At June 30, 2013, we had a working capital deficit of \$7,403,281, as compared to a working capital deficit of \$7,341,197, at December 31, 2012, a decrease of \$62,084. ~~The decrease is primarily attributable to the change in the value of warrant liability.~~^[v14] ~~The increase in the working capital deficit is primarily attributable to higher accounts payable, partially offset by a reduction of the warrant liability.~~

Net cash used in operating activities for the six months ended June 30, 2013 and 2012, was \$87,310 and \$95,475 respectively. The Company's cash used in operations increase is primarily due to the increased cost of the Company's new segment, Genetic Immunity.

Equity position in iGlue, Inc.

We currently own a minority stake in iGlue, Inc. ("iGlue"), a development stage internet search and content organizer software company trading on the OTCQB exchange in the United States. We financed iGlue's development efforts from August 2, 2007 (date of inception) to November 3, 2011 when iGlue went public. We still hold 2,884,986 shares of iGlue's common stock and warrants to purchase a total of three million additional shares. The market value of our iGlue common stock at June 30, 2013 was ~~\$8,366,459.~~ ~~book value of the investment is \$0.~~^[v15]

Description of our Business and Properties

Through our Vidatech subsidiary, we provide pro-active support for idea, research, start-up and expansion-stage technology companies having rights to technologies or intellectual properties which we believe to be potentially commercially viable, by offering a range of services designed to encourage and protect the continuing development and eventual commercialization of those technologies.

Our focus will be on technologies and technology companies based in the Republic of Hungary. We believe that the availability of technologies for purchase or license, coupled with the lack of sufficient investment capital for such technologies in Hungary, present us with an opportunity to acquire technologies on terms and conditions that we deem advantageous

Our strategy is to acquire majority interests in technologies through, among other things, direct investment in start-up and expansion stage technologies and technology companies; cooperative research and development agreements with such companies; direct licensing agreements; joint venture arrangements; or, direct acquisition of technologies and intellectual properties.

We also intend to provide services to assist in:

- The design of, research of, building of and testing of prototypes;
- facilitation of preparation of filing and prosecution of patent applications with Hungarian patent attorneys;
- business structuring;
- financing of research and development activities;
- the exposure of the technology to international markets; and
- the commercialization and/or sale of the subject technology.

We expect to obtain a majority participation interest in any given transaction involving idea, research, seed, start-up, early stage, technologies.

Genetic Immunity

Through our wholly-owned subsidiary, Genetic Immunity, a Phase III clinical-stage biotechnology company, we focus on developing, regulatory approval subsequent commercialisation of a new class of immunotherapeutic biologics ("Immune Therapies") for the treatment of chronic viral infections, cancer and allergy. Our Immune Therapies are designed to intensify or boost specific immune responses to modify or control these presently incurable diseases. We focus on completing clinical trial programs as needed and on commercialization tasks related to the Company's lead product candidate DermaVir therapeutic HIV vaccine.

As part of this process we are looking to submit a Conditional Marketing Approval request to the European Medicines Agency before the end of 2013.

Going Concern and Management's Plan

The accompanying unaudited condensed consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate the continuation of the Company as a going concern and assume realization of assets and the satisfaction of liabilities in the normal course of business. The Company has incurred losses from operations since inception. Management anticipates incurring additional losses in 2013. Further, the Company may incur additional losses thereafter, depending on its ability to generate revenues from the licensing or sale of its technologies and products, or to enter into any or a sufficient number of joint ventures. The Company has minimal revenue to date. There is no assurance that the Company can successfully commercialize any of its technologies and products and realize any revenues therefrom. The Company's technologies and products have never been utilized on a large-scale commercial basis and there is no assurance that any of its technologies or products will receive market acceptance. There is no assurance that the Company can continue to identify and acquire new technologies.

Since inception through June 30, 2013, the Company had an accumulated deficit of \$11,513,050 and net cash used in operations of \$2,614,895. However, management of the Company believes that the recent

funding from the private placement of the Company's common shares (See Note 8) together with related party loans and third party loans (see Note 6) will allow them to continue operations and execute its business plan.^[v16] We also anticipates receiving a minimum of \$5 million and a maximum of \$22 million from a lawsuit initiated against the National Development Agency in Hungary for breach of contract for a previously awarded grant.

Management believes the Company can raise adequate capital to keep the Company functioning through June 30, 2014, however currently there are no specific financing arrangements in place. No assurance can be given that the Company can obtain additional working capital, or if obtained, that such funding will not cause substantial dilution to shareholders of the Company. If the Company is unable to raise additional funds, it may be forced to change or delay its contemplated marketing and business plan. Being a development stage company, the Company is subject to all the risks inherent in the establishment of a new enterprise and the marketing and manufacturing of a new product, many of which risks are beyond the control of the Company. All of the factors discussed above raise substantial doubt about the Company's ability to continue as a going concern.

The unaudited condensed consolidated financial statements included in this Form 10-Q do not include any adjustments relating to the recoverability of recorded asset amounts that might be necessary as a result of the above uncertainty.

Other than the recently completed private placement all of our funding to date has been generated from loans from our officers and directors. During the next twelve months we anticipate that we will have sufficient funding to pursue the regulatory pathway needed to achieve marketing or conditional marketing approval(s) for Genetic Immunity's DermaVir HIV vaccine.

We currently have no other arrangements for financings and can give you no assurance that such financings will be available to us when required or on terms that we deem acceptable or at all.

Critical Accounting Estimates and Policies ^[v17]

This discussion and analysis of our financial condition and results of operations are based upon our condensed consolidated financial statements that have been prepared in accordance with generally accepted accounting principles in the United States of America ("US GAAP"). This preparation requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities. US GAAP provides the framework from which to make these estimates, assumption and disclosures. We chose accounting policies within US GAAP that management believes are appropriate to accurately and fairly report our operating results and financial position in a consistent manner. Our management regularly assesses these policies in light of current and forecasted economic conditions. Accounting policies that our management believes to be critical to understanding the results of our operations and the effect of the more significant judgments and estimates used in the preparation of the condensed consolidated financial statements are as those described in the Company's Current Report on Form 8-K filed with the SEC on April 16, 2007 for the year ended December 31, 2006 and as amended on August 30, 2007, and as follows.

Research and Development:

In accordance with ASC 730-10-25, "Accounting for Research and Development Costs," all research and development ("R&D") costs are expensed when they are incurred, unless they are reimbursed under specific contracts. Assets used in R&D activity, such as machinery, equipment, facilities and patents that have alternative future use either in R&D activities or otherwise are capitalized. In connection with the investment and advances in subsidiary, associate or other entity where repayment from such subsidiary, associate or entity solely on the results of the research and development having future economic benefit, the investment and advance is accounted for as costs incurred by the Company as research and development in accordance with ASC 730-20-25 "Research and Development Arrangements."

Share-Based Payment:

In accordance with ASC 718-10 “Share-Based Payment” all forms of share-based payment (“SBP”) awards including shares issued under employee stock purchase plans, stock options, restricted stock and stock appreciation rights result in a cost that is measured at fair value on the awards’ grant date, based on the estimated number of awards that are expected to vest.

The Company accounts for equity instruments issued to non-employees in accordance with the provisions of ASC 505-50, “Accounting for Equity Instruments That Are Issued to Other Than Employees for Acquiring, or in Conjunction with Selling, Goods or Services,” which requires that such equity instruments are recorded at their fair value on the measurement date. The measurement of stock-based compensation is subject to periodic adjustment as the underlying equity instrument vests. Non-employee stock-based compensation charges are amortized over the vesting period or period of performance of the services.

Recent Accounting Pronouncements

There were various updates recently issued, most of which represented technical corrections to the accounting literature or application to specific industries and are not expected to have a material impact on the Company's consolidated financial position, results of operations or cash flows.

Inflation and Foreign Currency

We maintain our books in local currency: US Dollars for the parent holding company and Gentic Immunity, Inc. in the United States of America and Hungarian Forint for Vidatech and Genetic Immunity, Kft. in Hungary.

Our operations are conducted primarily outside of the United States through our wholly owned subsidiary. As a result, fluctuations in currency exchange rates may significantly affect our sales, profitability and financial position when the foreign currencies, primarily the Hungarian Forint, of its international operations are translated into U.S. dollars for financial reporting. In addition, we are also subject to currency fluctuation risk with respect to certain foreign currency denominated receivables and payables.

Although we cannot predict the extent to which currency fluctuations may or will affect our business and financial position, there is a risk that such fluctuations will have an adverse impact on our sales, profits and financial position. Because differing portions of our revenues and costs are denominated in foreign currency, movements could impact our margins by, for example, decreasing our foreign revenues when the dollar strengthens and not correspondingly decreasing our expenses. We do not currently hedge our currency exposure. In the future, we may engage in hedging transactions to mitigate foreign exchange risk.

The translation of our subsidiary’s Forint denominated balance sheets into U.S. dollars, as of June 30, 2013, has been affected by the strengthening of the U.S. dollar against the Hungarian Forint from 221.26 HUF/USD as of December 31, 2012, to 226.27 HUF/USD as of June 30, 2013, an approximate 2% decrease in value. The average Hungarian Forint/U.S. dollar exchange rates used for the translation of the subsidiaries’ forint denominated statements of operations into U.S. dollars, for the six months ended June 30, 2013 and 2012 were 227.25 and 224.39, respectively.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We do not hold any derivative instruments and do not engage in any hedging activities.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

Pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934 (“Exchange Act”), the Company carried out an evaluation, with the participation of the Company’s management, including the Company’s Principal Executive Officer (“PEO”) and Principal Financial Officer (“PFO”), of the effectiveness of the Company’s disclosure controls and procedures (as defined under Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report. Based upon that evaluation, the Company’s PEO and PFO concluded that the Company’s disclosure controls and procedures were not effective to ensure that information required to be disclosed by the Company in the reports that the Company files or submits under the Exchange Act, is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to the Company’s management, including the Company’s PEO and PFO, as appropriate, to allow timely decisions regarding required disclosure.^[v18] Management concluded that our disclosure controls are not effective due to the internal control weaknesses described in our Form 10-k that still exist as of June 30, 2013, the period covered by this Form 10-Q

(b) Changes in Internal Controls

There have been no changes in the Company’s internal control over financial reporting during the latest fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting. due to the internal control weaknesses described in our Form 10-k that still exist as of June 30, 2013, the period covered by this Form 10-Q.^[v19]

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

Other than the matters previously disclosed, we are currently not involved in any litigation that we believe could have a material adverse effect on our financial condition or results of operations. There is no action, suit, proceeding, inquiry or investigation before or by any court, public board, government agency, self-regulatory organization or body pending or, to the knowledge of the executive officers of our company or any of our subsidiaries, threatened against or affecting our company, our common stock, any of our subsidiaries or of our companies or our subsidiaries' officers or directors in their capacities as such, in which an adverse decision could have a material adverse effect.

Item 1A. Risk Factors.

We believe there are no changes that constitute material changes from the risk factors previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2012, filed with the SEC on April 15, 2013.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

There were no unregistered sales of the Company's equity securities during the quarter ended June 30, 2013, other than those previously reported in a Current Report on Form 8-K.

Item 3. Defaults Upon Senior Securities.

There were no defaults upon senior securities during the quarter ended June 30, 2013.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

There is no other information required to be disclosed under this item which has not been previously disclosed.

Item 6. Exhibits.

Exhibit 31.1

Certification of Principal Executive Officer
Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
and Securities and Exchange Commission Release 34-46427

I, Viktor Rozsnyay, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Power of the Dream Ventures, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's certifying officers have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
